

Finish + CMYK print

The coating is created using a full-tone colour – a fifth colour in addition to the four CMYK colours.

To create full-tone colours, a graphic design software is necessary.
Do not use MS Office programmes to create these print files!

Instructions

- ☐ Create a full-tone colour and name it “spot”.
This full-tone colour can be chosen at random – we recommend using magenta to better distinguish it from your design.
- ☐ Place all finished elements on the top layer.
- ☐ Fill these elements with the full-tone colour “spot”.
- ☐ **Select all finished elements and set them to “overprint”.**

Checklist

- ☐ Your design may only contain one full-tone colour
- ☐ Use vector files only for finished elements
- ☐ Tonal value has to be 100 % – do not use colour grids or half-tone values
- ☐ Do not use any graphic effects such as distortions, transparencies, cast shadows etc.

- ☐ Positive minimum font size 12 pt, regular or bold - please use sans serif fonts
- ☐ Negative minimum font size 15 pt, bold - please use sans serif fonts

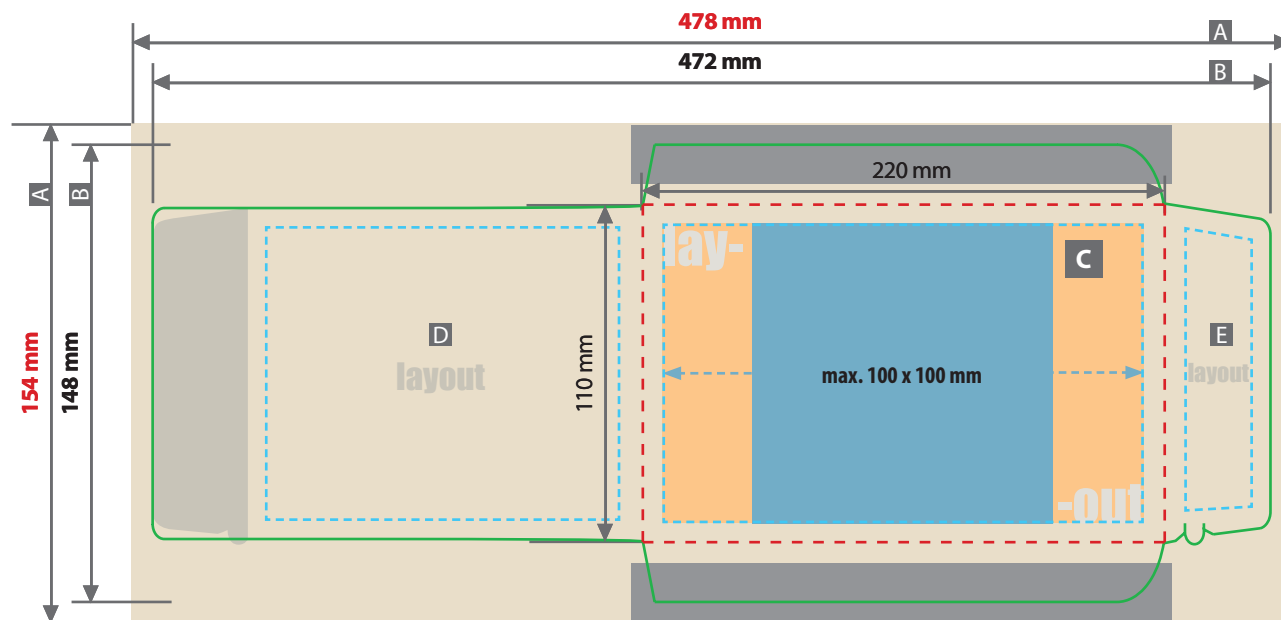

- ☐ Positive minimum line thickness 1 pt (0.35 mm)
- ☐ Negative minimum line thickness 1.5 pt (0.53 mm)

The size, possible positions and spacing can be found in the attached data sheet.

Envelope, high quality, with tear-open flap on the short side

DL, landscape, can be printed all over + finish

Exterior

Finish

The print design may only be positioned once.

Orange box: The position is freely selectable within the finish area.
compulsory specifications - see info page

Back

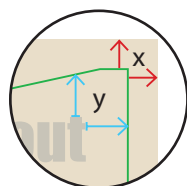

Grey box: In the sealed product this area is not visible.

Please note

For text, logos, and important elements, it is essential to keep the safety distance (blue dashed contour).

Print file delivery

PDF file

Folded finished format
220 x 110 mm

- A = file format
- B = finished size
- C = front
- Orange box = finish area
- Blue box = **maximum size of design (finish)**
100 x 100 mm
- D = back
- E = closure with flap
- Blue dashed line = safety distance
- Red dashed line = fold line
- Light grey box = partially visible area,
only create the background here
- Dark grey box = Adhesive tab, not visible,
only create the background here

Diagrams are not to scale

CAUTION:

Please remove the print temp
