

Soft back notepad, binding on the left

A4; portrait, notepad with 100 pages

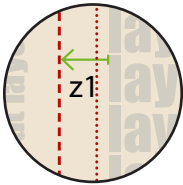

Document page 1: Cover - exterior

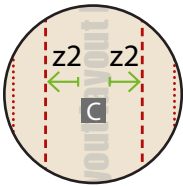

Document page 2: Cover – interior – not required for cover with 4/0 single sided print

Bleed (x)
3 mm
Safety distance (y)
5 mm

Safety distance spine edge (z1)
10 mm from back and title

Safety distance spine (z2)
1 mm to back and title

- A = file format
- B = finished size
- C = spine thickness
- D = fold line
- E = glued area, not printed, leave blank in your design

- U1 = title cover
- U4 = back cover
- U2 = inner left cover
- U3 = inner right cover

Folded finished format
210 x 297 mm

print files

file 1: Single sided cover with 4/0 single sided print
or
file 1: Double sided cover with 4/4 double sided print

Glued area (E):

This area cannot be printed.
Please leave this area blank in your design.
The stated width in the design already contains an overfill for the full-coverage background.
The first and last pages of the interior will be glued at 5 mm width to the cover for maximum durability.

Soft back notepad, binding on the left

A4; portrait, notepad with perforation

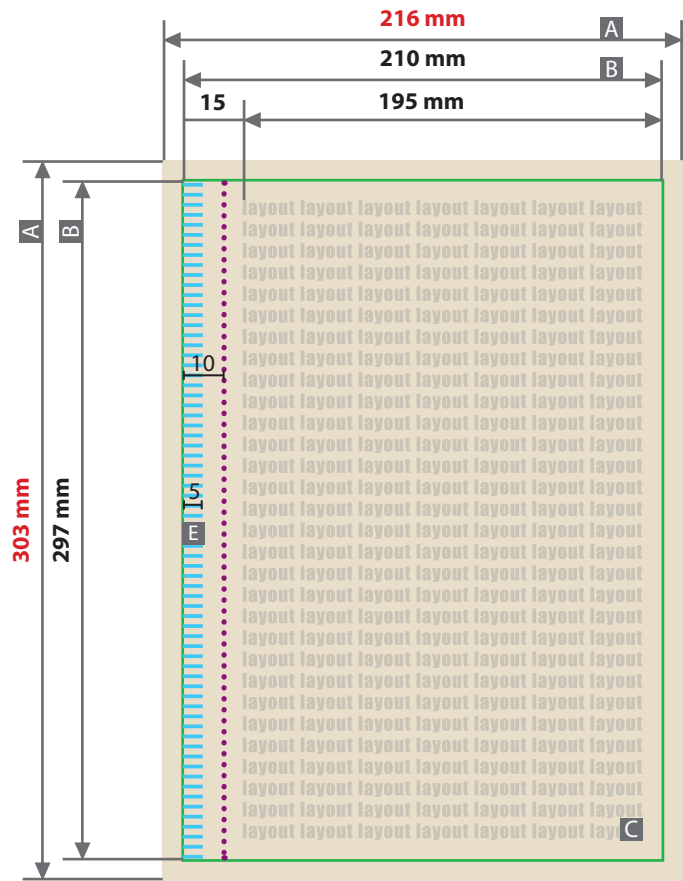

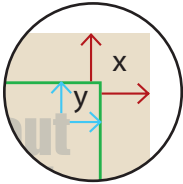

Inner part: notepad 4/0 single sided print

only the front is printed = right side

You design only one page. We duplicate it for the entire notepad.

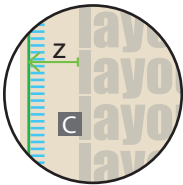

The cover is not perforated.

Front

Bleed (x)
3 mm

Safety distance (y)
5 mm

Safety distance in binding (z1)
15 mm

- A = file format
- B = finished size
- C = right side
- E = glued, non-visible area
(first + last pages of document)
- perforation
10 mm distance to the finished size

Please deliver two print files

- file 1: cover
- file 2: front page of the notepad, right side

Glued area (E):

The first and last pages of the interior will be glued at 5 mm width to the cover for maximum durability.

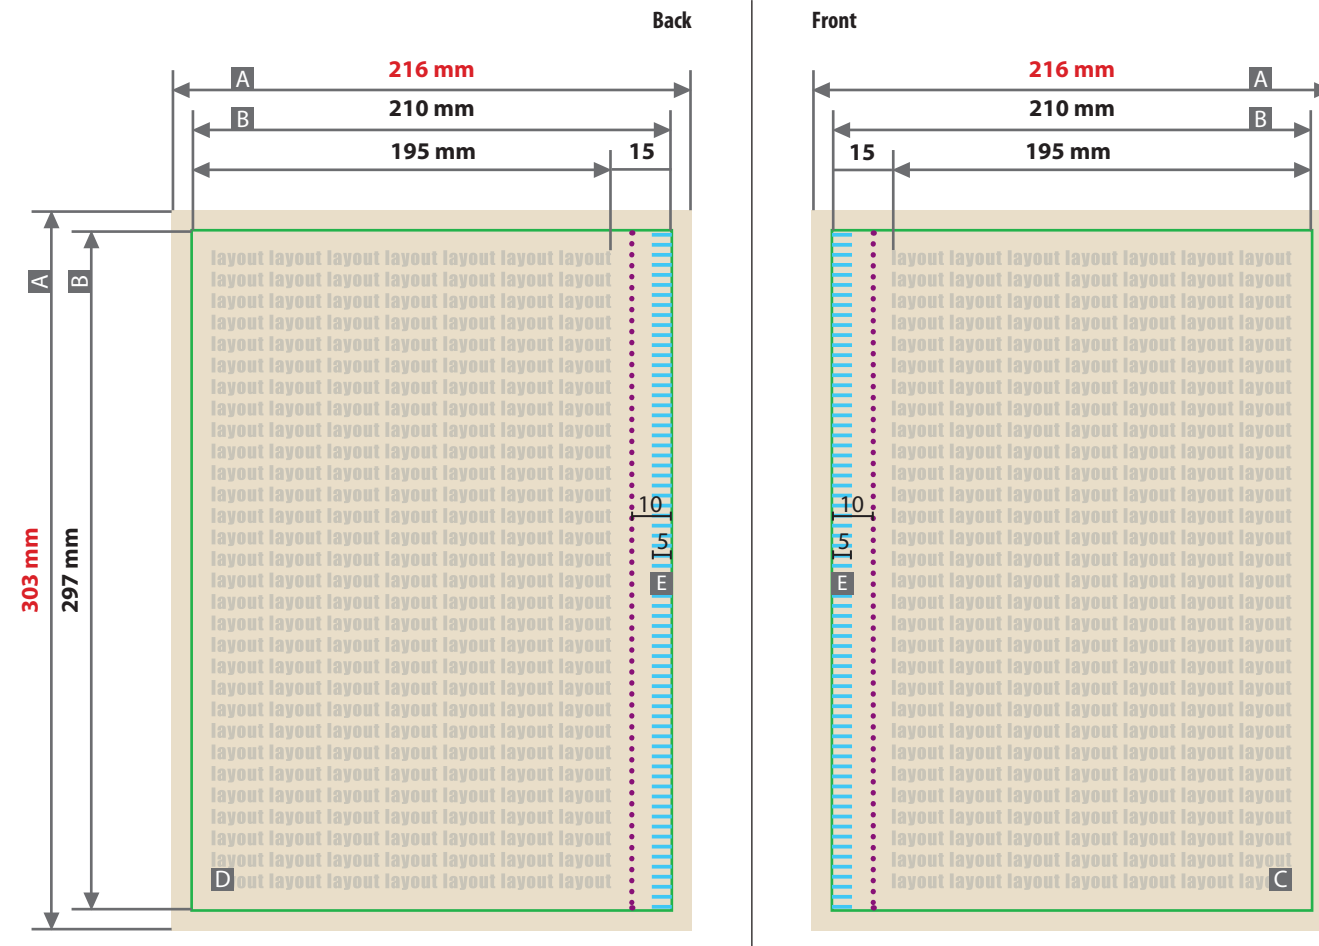

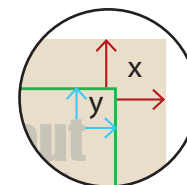

5 mm of design space will be lost in doing this.

Soft back notepad, binding on the left

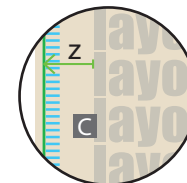

A4; portrait, notepad with perforation

Inner part: notepad 4/4 double sided print

both front and back are printed = right and left side
 You design only 2 pages. We duplicate them for the entire notepad.
 The cover is not perforated.

Bleed (x)
 3 mm
 Safety distance (y)
 5 mm

Safety distance in binding (z1)
 15 mm

- A = file format
- B = finished size
- C = right side
- D = left side
- E = glued, non-visible area
 (first + last pages of document)
- ... perforation
 10 mm distance to the finished size

Please deliver three print files:

file 1: cover

file 2: front page of the notepad, right side

file 3: back of the notepad, left side

Please upload the front and the back as single pages.

Glued area (E):

The first and last pages of the interior will be glued at 5 mm width to the cover for maximum durability.

5 mm of design space will be lost in doing this.
